

Helping People Excel

For decades, Gallup's CliftonStrengths® assessment has helped people excel. From top business executives and managers to salespeople, healthcare workers, teachers, students, pastors, and others. More 15 million people have realized the benefits of leading with their strengths.

Do What You Do Best Every Day

Strengths are the unique combination of talents, knowledge, and skills that every person possesses. People use these innate traits and abilities in their daily lives to complete their work, to relate with others, and to achieve their goals. But most people don't know what their strengths are or have the opportunity to use them to their advantage.

People who do focus on their strengths every day are six times as likely to be engaged in their jobs. They are more productive too, both individually and in teams. And they are more than three times as likely to say they have an excellent quality of life.

Take the CliftonStrengths assessment and discover your top 5 strengths. Learn how your "signature strengths" help you excel, and begin your path to better performance and higher engagement. Intended as an introduction to strengths, this solution is ideal for people who want a quick, focused approach to strengths-based development.
